

**Ages:** 6-12 years old

**Hours:**

- 9am – 12nn
- 12:30 – 3:30pm

**Costs (weekly):**

- Half-day (morning or afternoon) \$150
- Full-day \$250

**Summer Camp Dates:**

July 9-13	<b>Space!</b>	August 13-17	<b>Open Air</b>
July 16-20	<b>Open Air</b>	August 20-24	<b>Space!</b>
July 23-27	<b>Mother Nature</b>	August 27-31	<b>DIY STEAM</b>
July 30-August 3	<b>DIY STEAM</b>		

Each week, participants will explore STEAM activities based on the weeks theme and they will learn a variety of new simple games that they can share with their friends.

### **Space!**

3-2-1 Blast off to outer space! Build rockets, design habitats, and participate in physical challenges to earn your junior astronaut certificate. Learn about space exploration and the possibility of living on other planets!

### **Open Air**

Take STEAM outside this summer! It's a week full of the coolest science, technology, engineering, art and math activities outside.

### **Mother Nature**

Dig into the world of Earth Science. Do science experiments, conduct environmental testing, learn about the local wildlife, and build a bat house. The week will be spent outside as much as possible.

### **DIY STEAM PROJECTS**

Learn how to make your own art supplies like chalk, paper, and paint. Explore alternative energy sources while building your own toy solar car, wind turbine and other projects powered by your imagination.
